Intermediate (B1)

Korean ●●●○○○
Intermediate (B1)

statements, triggers, database and schema
- Django: ORM, views and urls, forms and templates, django-admin, serializers, validation, authtentication and permissions, filters and search, documentation, docker (compose), integration and unit tests, CI/CD, deployment

2021-01 - 2024-01

Architect

Tashkent University of Architecture and Construction - Tashkent

Design of buildings and structures. Modeling in 3ds max, autocad, lumion, photoshop, corel draw, revit, sketchUp programs. Exterior and interior design

Online Course: Java Backend Development

Udemy - Online

Java Concept (e.g loops, operators, methods), OOP (classes and objects), Hibernate, Spring, Spring Boot, JPA, Kubernetes and Docker, Maven, Gradle, Java Authentication and Authorization Service, Spring Security,

Strengths

- Time management, Prioritizes essential tasks so they are not rushed. Sets deadlines that ensure reaching milestones on time.
- Adaptability, I always remember that development is the need of the hour. I break

my projects into several parts so that if something goes wrong, I can quickly fix it.
* Accountability, I take ownership of my mistakes. By doing that I learn what I did wrong so that it does not happen again.

Databasesandservers

* PostgreSQL
* MySQL
* SQLite
* SQL requests

Certifications

2022-08   PDP Academy - Python Backend development
